

Volunteer News December 2022

It might be getting cold outside, but your support keeps our hearts warm this winter! By sharing your time, talent, and love this holiday season, you help our clients stay healthy and safe in their own homes. We all know that "there's no place like home for the holidays," but this is especially true for our clients who have lived in their house for 50+ years, raised a family there, and feel safest there. Thank you for helping our clients stay where they feel the most comfortable - it means the world to them.
